## POLYMER G

<b>Technical Data:</b> Issued: Nov. 2005 Revision: Nov.2016, Page: 1	<b>RTV 111</b> General Purpose Potting and Ca	asting RTV Silicone		
Product Description	RTV 111 is a multi-purpose casting material for use as an encapsular sealant or potting compound. RTV 111 is used in protecting electron components and in casting of elements for electronic equipment an delicate systems.			
Features & Benefits	• Medium viscosity	• Low temperature flexibility		
	• High temperature resistance	• Excellent electrical properties		
	• Long pot life	• Accelerated curing at elevated Temperature		
	Potting, Casting and Encapsulati			
Applications Typical Uncured Properties	Potting, Casting and Encapsulati Note: The following technical information typical only and should not be used	n and data should be consider		
Typical Uncured	Note: The following technical information	n and data should be consider		
Typical Uncured	Note: The following technical information typical only and should not be used	n and data should be consider I for specification purposes. RTV 111 (A)	ed representative or Silicones	
Typical Uncured	Note: The following technical information typical only and should not be used Base Resins	n and data should be consider l for specification purposes. RTV 111 (A) RTV T-12 (B)	ed representative or Silicones Catalyst	
Typical Uncured	Note: The following technical information typical only and should not be used Base Resins Appearance/Color Viscosity @25°C, mPa*s	n and data should be consider for specification purposes. RTV 111 (A) RTV T-12 (B) RTV 111 (A)	ed representative or Silicones Catalyst White	
Typical Uncured	Note: The following technical information typical only and should not be used Base Resins Appearance/Color Viscosity @25°C, mPa*s ASTM-D-2393	n and data should be consider for specification purposes. RTV 111 (A) RTV T-12 (B) RTV 111 (A) RTV 111 (A) RTV 111 (A)	ed representative or Silicones Catalyst White 7500-11000	

**Instructions for use:** 

Stir compound RTV 111 thoroughly in the original container prior to use

## POLYMERIG

**Technical Data:** Issued: Nov. 2005 Revision 1: Nov. 2016, Page: 2 **RTV 111** 

Note:

General Purpose Potting and Casting RTV Silicone

Typical Cured Properties The following technical information and data should be considered representative or typical only and should not be used for specification purposes.

Curing Schedule	24hr/25°C
Hardness, ASTM-D-2240, Shore A	40-45
Tensile Strength, ASTM-D-412, MPa	1.9-2.2
Tensile Elongation, ASTM-D-412, %	90-110
Service Temperature, °C	-55 to 205

Storage	Store products at 10-35°C for maximum shelf life.	
Packaging	Packaging sizes are available from 1L to 5L pails	
Shelf Life	The product has a shelf life of 6 months in their unopened original pails.	
Limitation of Liability	Except where prohibited by law, Polymer-G and seller will not be liable for any loss or damage arising from the Polymer-G product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.
